Interfaith Summit 2008 Where to Start: Closing Gaps in Serving Older Adults

Faith communities are often “first responders” when older people and the people who care for them need assistance.

As our older population grows in size, how prepared are the faith communities to handle its escalating needs?

Representatives of Fairfax area faith communities are invited to learn how to better share resources at the community level and how to build programs for older adults.

“Fairfax County and its partners . . . have developed a strong range of streamlined services to meet the growing needs of older adults. Nevertheless, many services are at or nearing capacity . . . it is anticipated that increasing numbers of older adults will strain the community safety net.”

50+ Action Plan, Fairfax County Board of Supervisors, October, 2007

Interfaith Summit 2008 is a collaborative effort of the Fairfax Long Term Care Coordinating Council, CareFaxLTC, the Fairfax County Health Department, the Fairfax County Department of Family Services’ Fairfax Area Agency on Aging, Faith Communities in Action, AARP, and The Helen A. Kellar Institute for disAbilities.

No Admission Fee!
