Below is a listing of external grant opportunities announced by funding source for the week of November 4-8, 2013.

Richardson (Smith) Foundation, Inc.

Domestic Public Policy Program

Deadline: Up to 5-page concept paper at any time

The Domestic Public Policy Program supports projects that will help the public and policy makers understand and address critical challenges facing the United States. An overarching goal of the Foundation’s grant making is to support projects that help stimulate and inform important public policy debates. To that end, the Foundation supports research on and evaluation of existing public policies and programs, as well as projects that inject new ideas into public debates. Foundation interest in public finance issues by beginning to explore the future of the Medicare program and the larger challenge of coping with expected increases in the costs of federal entitlement programs. The Foundation also provides support for projects that assess the impact of immigration on American society, examine the effectiveness of our regulatory policies, and explore the interaction between the policy making process and the political process through support for projects on congressional redistricting and the conduct and financing of political campaigns. The Foundation continues to support projects that inform the debate over policies designed to assist disadvantaged families.
