Welcome to the school of Nursing in the College of Health and Human Services at George Mason University for Fall 2013! There are many requirements you must fulfill in order to begin classes in the fall. Please review the following requirements as failure to complete all requirements prior to August 12, 2013 will result in loss of your space in the program.

The most important requirement we need to tell you about is the mandatory orientation beginning the week prior to the start of classes: August 19-23, 2013. The first day will provide an overview of the BSN program; the rest of the week will provide basic instructions in the skills lab. Specific information will be forthcoming as we get closer to that week.

Registration and book information will be posted on Blackboard. School of Nursing Student Organization.

The School of Nursing immunization requirements are separate from the University immunization requirements, essentially because of our clinical partners’ requirements. You must provide documentation to both entities as requested.

Criminal background check: must sign up by July 1, 2013
Drug screen: must take between the dates of July 15 and August 12
CPR: American Heart Association only
Physical: must use form included
TB skin test: in the summer between May and August 12
MMR
Varicella
Hep A
Hep B
TDap
Meningococcal

These requirements must be completed and approved on the certified background tracker no later than August 12, before the first day of orientation. If these requirements are not met, you will not be allowed to start the BSN program.

Instructions for these requirements are posted in the content folder at: https://mymasonportal.emu.edu/webapps/portal/frameset.jsp
Your user name and password are the same ones you use to access Patriot Web.
Click on Organizations tab, then on School of Nursing Students.
Click on the Welcome BSN Students for all information.
